

DESCRIPTION

This is a unique opportunity for a leadership position in our Portland, Oregon office with vast potential for career growth. We are seeking a motivated leader to supervise our Oregon mechanical engineering team consisting of seven engineers and designers located in Portland and Eugene. This is a Principal-track position in a fast-growing market with potential ownership opportunities within the first several years.

Established in 2018, our 16-person Oregon MEPT team serves many high-profile public institutions, including school districts, municipalities, and several universities. We are also active in the hospitality and commercial development markets. KCL's Oregon team has experienced 50% year-over-year growth for the past several years and is on track for continued success.

KCL Engineering is an entrepreneurial company with an award-winning culture, flexible work style, and an ingenious team unmatched in the consulting engineering industry. We are an engineering firm focused on growth and innovation to provide our teammates with abundant career opportunities. Our model emphasizes personal as well as professional fulfillment and makes job satisfaction the top priority. Entrepreneurial-minded engineers are empowered to become leaders and owners to control their work experience and career path.
